This project has received funding from the European Research Council (ERC) under the European Union's Horizon 2020 research and innovation programme under Grant Agreement n° 770309.

RETOPEA has set up a website under the domain name Retopea.eu. A test version of this website was placed online in May 2018 and contained all basic information about the project, in preparation for the kick-off meeting.

On the basis of feedback from the research team and an update regarding the available software, it was decided in June to transfer this site from the 'Omeka' environment to 'Omeka Plus', which allows for additional functionality and an easier integration and translation of the data. The new Omeka Plus site was developed by KADOC-KU Leuven and Libis during the summer months, whilst the initial website was maintained to keep an online presence during the redevelopment phase. With the new website ready, all information was transferred from Omeka to Omeka Plus, guaranteeing continuity of visibility.

The new website is structured following the guidelines described in attachment, after a consultation round with all relevant partners, and this structure serves as the basis for the further exploitation of the website and the RETOPEA-VRE.
