This project has received funding from the European Research Council (ERC) under the European Union's Horizon 2020 research and innovation programme under Grant Agreement n° 770309.

1. Standardized workflows and their availability

The standardized workflows for RETOPEA have been described in deliverables 4.1 (the Data Management Plan), 4.6 (the online manual for the VRE) and 4.8 (the harmonized metadata scheme). This information will now be assessed for dissemination through the RETOPEA website, depending on expediency and utility. Wiki-entries will not be used for doing so, yet the option of blog-posts is still considered. In the meantime, all aspects of the workflow have been made available on the Seafile Platform maintained by the IEG Mainz. They have also been communicated during the meetings of Work Package two (13-14 December 2018) and Work Package three (25-26 April 2019).
